VEHICLE ENTRY

# STEEL DOOR THRESHOLDS

Protect the most used area of your van.

Side and rear doors are the **most used areas** of any work van. From hauling equipment, to delivering cargo, these spaces often bear the brunt of constant use. With entry thresholds you add an extremely durable and grippy layer of protection that prevents accidental injury.

INSTALL

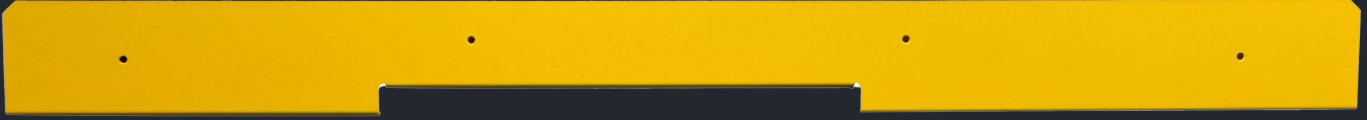

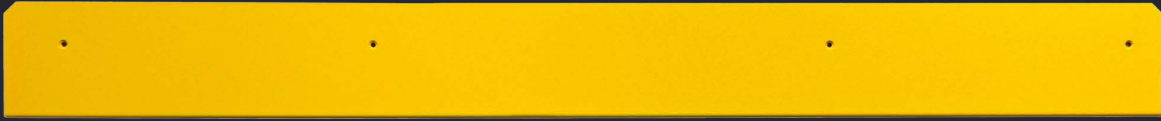

**15 MINS**

MATERIAL

**14-GAUGE  
STEEL**

REAR & SIDE

**2-IN-1**

## DON'T MISS A STEP WITH HI-VIS YELLOW THRESHOLDS

Steel Floor Threshold sets come in an electric yellow that make them hard to miss – even when you have boxes stacked over your head!

The aggressive colour minimizes the potential for injury when getting in & out of your van, even in low lighting conditions.

Custom colors are available for fleet applications.

### Available Kit\* Options

Side Door Sills

Rear Door Sills

*\*Threshold appearance will vary based on the make, model and year of the vehicle. Photo is of a Ram ProMaster.*

## ANTI-SLIP EVEN IN THE WORST WEATHER CONDITIONS

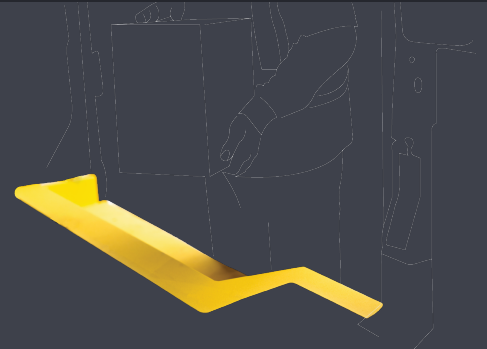

When properly installed, our Steel Doorway Thresholds make it nearly impossible to slip – even in the most unforgiving conditions.

Our non-slip coating withstands snow covered boots, wet shoes and even ice-covered treads. Steel Thresholds maximize your safety, without breaking the bank.

## STEEL DOOR THRESHOLDS FAQ

### Why would I add Steel Thresholds over Factory Solutions?

Factory solutions come at no extra cost and are pre-installed – but over time, the thin metal (or plastic) solutions can wear out and become a safety concern. Steel thresholds provide a tougher, more durable surface that resists dents, cracks and wear over time.
