

THE UPFIT YOU DESERVE

THERMAL INSULATION

# TEMPSHIELD

Insulation that works as hard as you do.

TempShield is an **additional thermal insulation** solution designed to preserve the internal temperature of your cargo area. Made of a crosslinked closed cell polyolefin foam, TempShield boasts the lowest thermal conductivity level of any flexible insulation material - meaning it's good at keeping outside temperatures, out.

## GOODBYE SPRAY FOAM INSULATION

TempShield boasts our most impressive insulating qualities to date, especially when combined with our premium DuraTherm interior liners.

This is due in part to the vehicle specific design. Whereas DuraTherm rests along the metal ribs of the van, TempShield is installed directly between the wall cavities, creating a complimentary insulation solution.

### Available Kit\* Options

RAM Promaster 136", 159", 159" EXT

Ford Transit 130", 148", 148" EXT

Mercedes Sprinter 144", 170", 170" EXT

*\*Kit includes Wall, Ceiling and Door Liners*

## PEEL & PLACE INSTALLATION

TempShield solves the headache of spray foam installation by deploying a simple Peel & Place Installation process.

Factory applied adhesive backing means installation can be done in three steps:

1. Peel the protective cover off
2. Line up insulation to correct wall
3. Firmly place

## TEMPSHIELD FAQ

How does TempShield compare to a spray foam insulation?

The insulation value is very comparable - however TempShield eliminates the headache of the installation of spray foam. It also reduces the install time thanks to the prefabricated cut pieces.
